

On behalf of the Government of the Republic of Belarus I sincerely congratulate the International Science and Technology Center on its 15th anniversary!

I extend gratitude to the ISTC for the substantial contribution to maintenance, support and development of research potential of the Republic of Belarus, for introducing new mechanisms of implementing research results directed at strengthening innovation grounds of Byelorussian economy.

We highly appreciate initiatives of the International Science and Technology Center that provide support of science and technology ties between the countries and that facilitate solution of a complex task of sustainable development in the context of global competition.

I wish to the International Science and Technology Center to successfully implement all the plans and to achieve new heights for the benefit of global science!

Vladimir SEMASHKO,
Principal Deputy Prime Minister
of the Republic of Belarus
